

INTRODUCING

SetMe

SENATOR

SECTION ONE

BEAUTIFUL INNOVATION

We never indulge ourselves, only the end user.
SetMe is the perfect example of this ethos.

Designed with a common language of strong lineal lines finished with a subtle curve, it's this rigorous attention to detail that completes SetMe; a comprehensive benching system that gives control to the user and puts individual wellbeing at its core.

All the while maintaining a calm personality providing a space to think, concentrate, control privacy and personalise, were all key criteria that informed our design and development process.

DESIGN

SetMe is a new benching system.

As height adjustability plays an ever increasing role in the modern office, SetMe offers one of the first and most comprehensive benching solutions where individual work surface height adjustability is at its core.

The system provides each user with a defined space where each work surface is height settable allowing the user to define their own ideal working posture.

The side screens provide varying degrees of privacy to individuals and teams and a comprehensive wire management system that runs through the spine of the bench has a huge capacity and is easily accessible. SetMe looks but doesn't act like a traditional benching system.

PERCH.

STAND.

SIT.

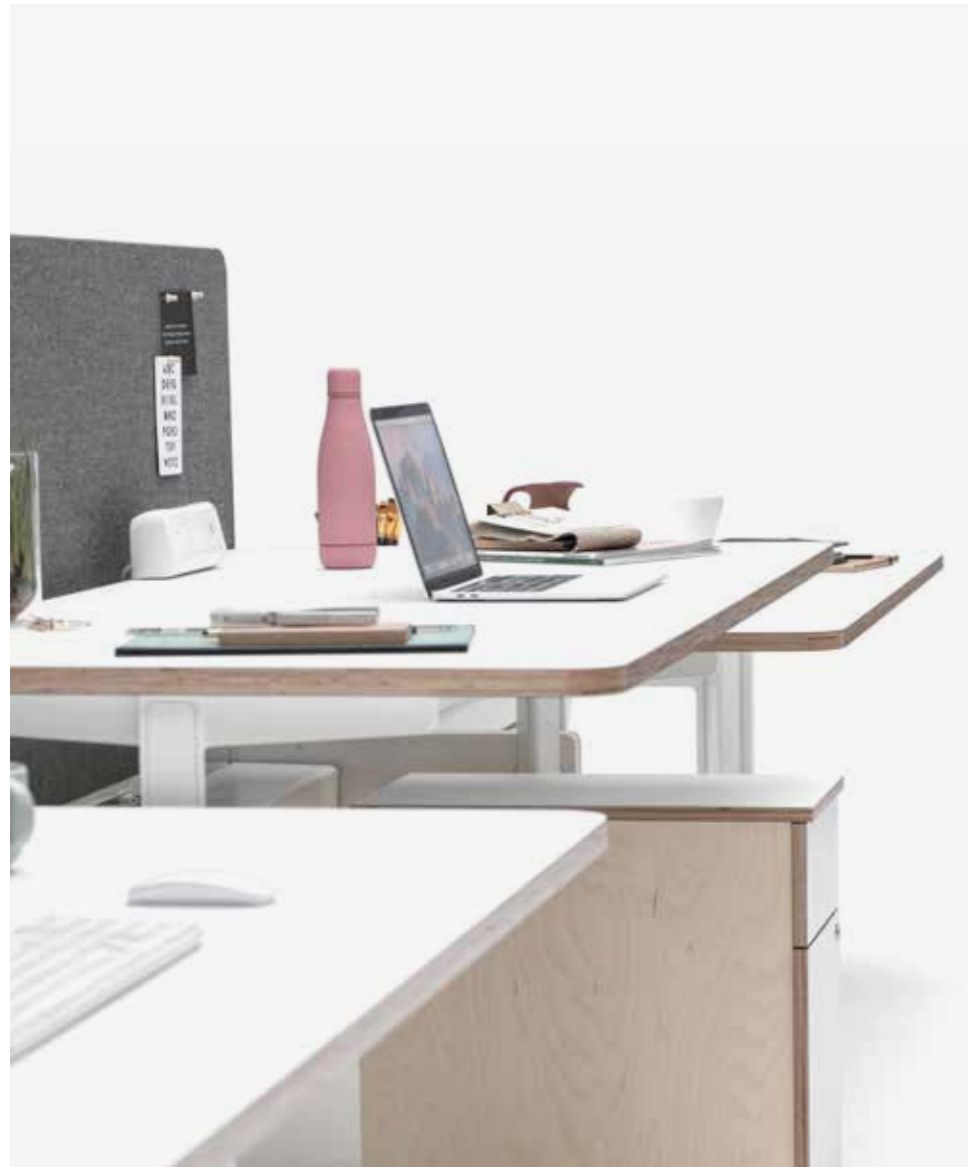

1

THE CALM AESTHETIC OF THE LEG CONCEALS A HOST OF INNOVATIVE FEATURES.

2

THE BEAUTY OF HAVING EACH TOP HEIGHT SETTABLE ON A RIGID BASE STRUCTURE.

3

THE SOFT FORM SCREENS CAN BE SPECIFIED AS PINNABLE AND ALL CONTAIN A CONCEALED TOP ACCESSORY RAIL.

HIDDEN DEPTHS

The design of SetMe is about calmly providing all the features in a benching system that clients have requested over recent times. But delivering this in an aesthetically calm way all the features are present but the design and innovation is in effect in their concealment.

EVERYONE GETS TO CHOOSE

The innovative design of SetMe creates a unified bench structure that provides each user the opportunity to achieve their optimum work surface height with 200mm of height adjustment. The design provides fantastic stability and pass through cable management. Screens, storage and accessories can be added to allow users to personalise their environment.

A SETTABLE SOLUTION

As height adjustability plays an ever increasing role in the modern office, SetMe offers one of the first and most comprehensive benching solutions where individual work surface height adjustability is at its core.

The system provides each user with a defined space where each work surface is height settable allowing the user to define their own ideal working posture.

The side screens provide varying degrees of privacy to individuals and teams and a comprehensive wire management system that runs through the spine of the bench has a huge capacity and is easily accessible. SetMe looks but doesn't act like a traditional bench system.

1

PLACE THE JACK UNDER THE CENTRAL BEAM OF THE WORK SURFACE, THERE IS NO NEED TO REMOVE ANY MONITORS OR CABLES OR NOTES.

2

USING A POWERED SCREWDRIVER ENGAGE THE JACK ON THE CENTRAL BEAM, REMOVE THE COVERS ON THE SETTABLE 'T'S AND LOOSEN THE BOLTS AND SAFETY CATCH.

3

USING THE POWERED SCREWDRIVER DRIVE THE JACK TO SET THE HEIGHT OF THE DESK TO WHERE YOU WANT IT. RETIGHTEN THE SAFETY CATCH AND BOLTS LOWER THE JACK AND REMOVE IT.

SECTION TWO

ENGINEERING EXCELLENCE

Whether it's height settable, height adjustable or both. SetMe has been designed to cater to the users individual needs by putting personalisation at the heart of everything it does.

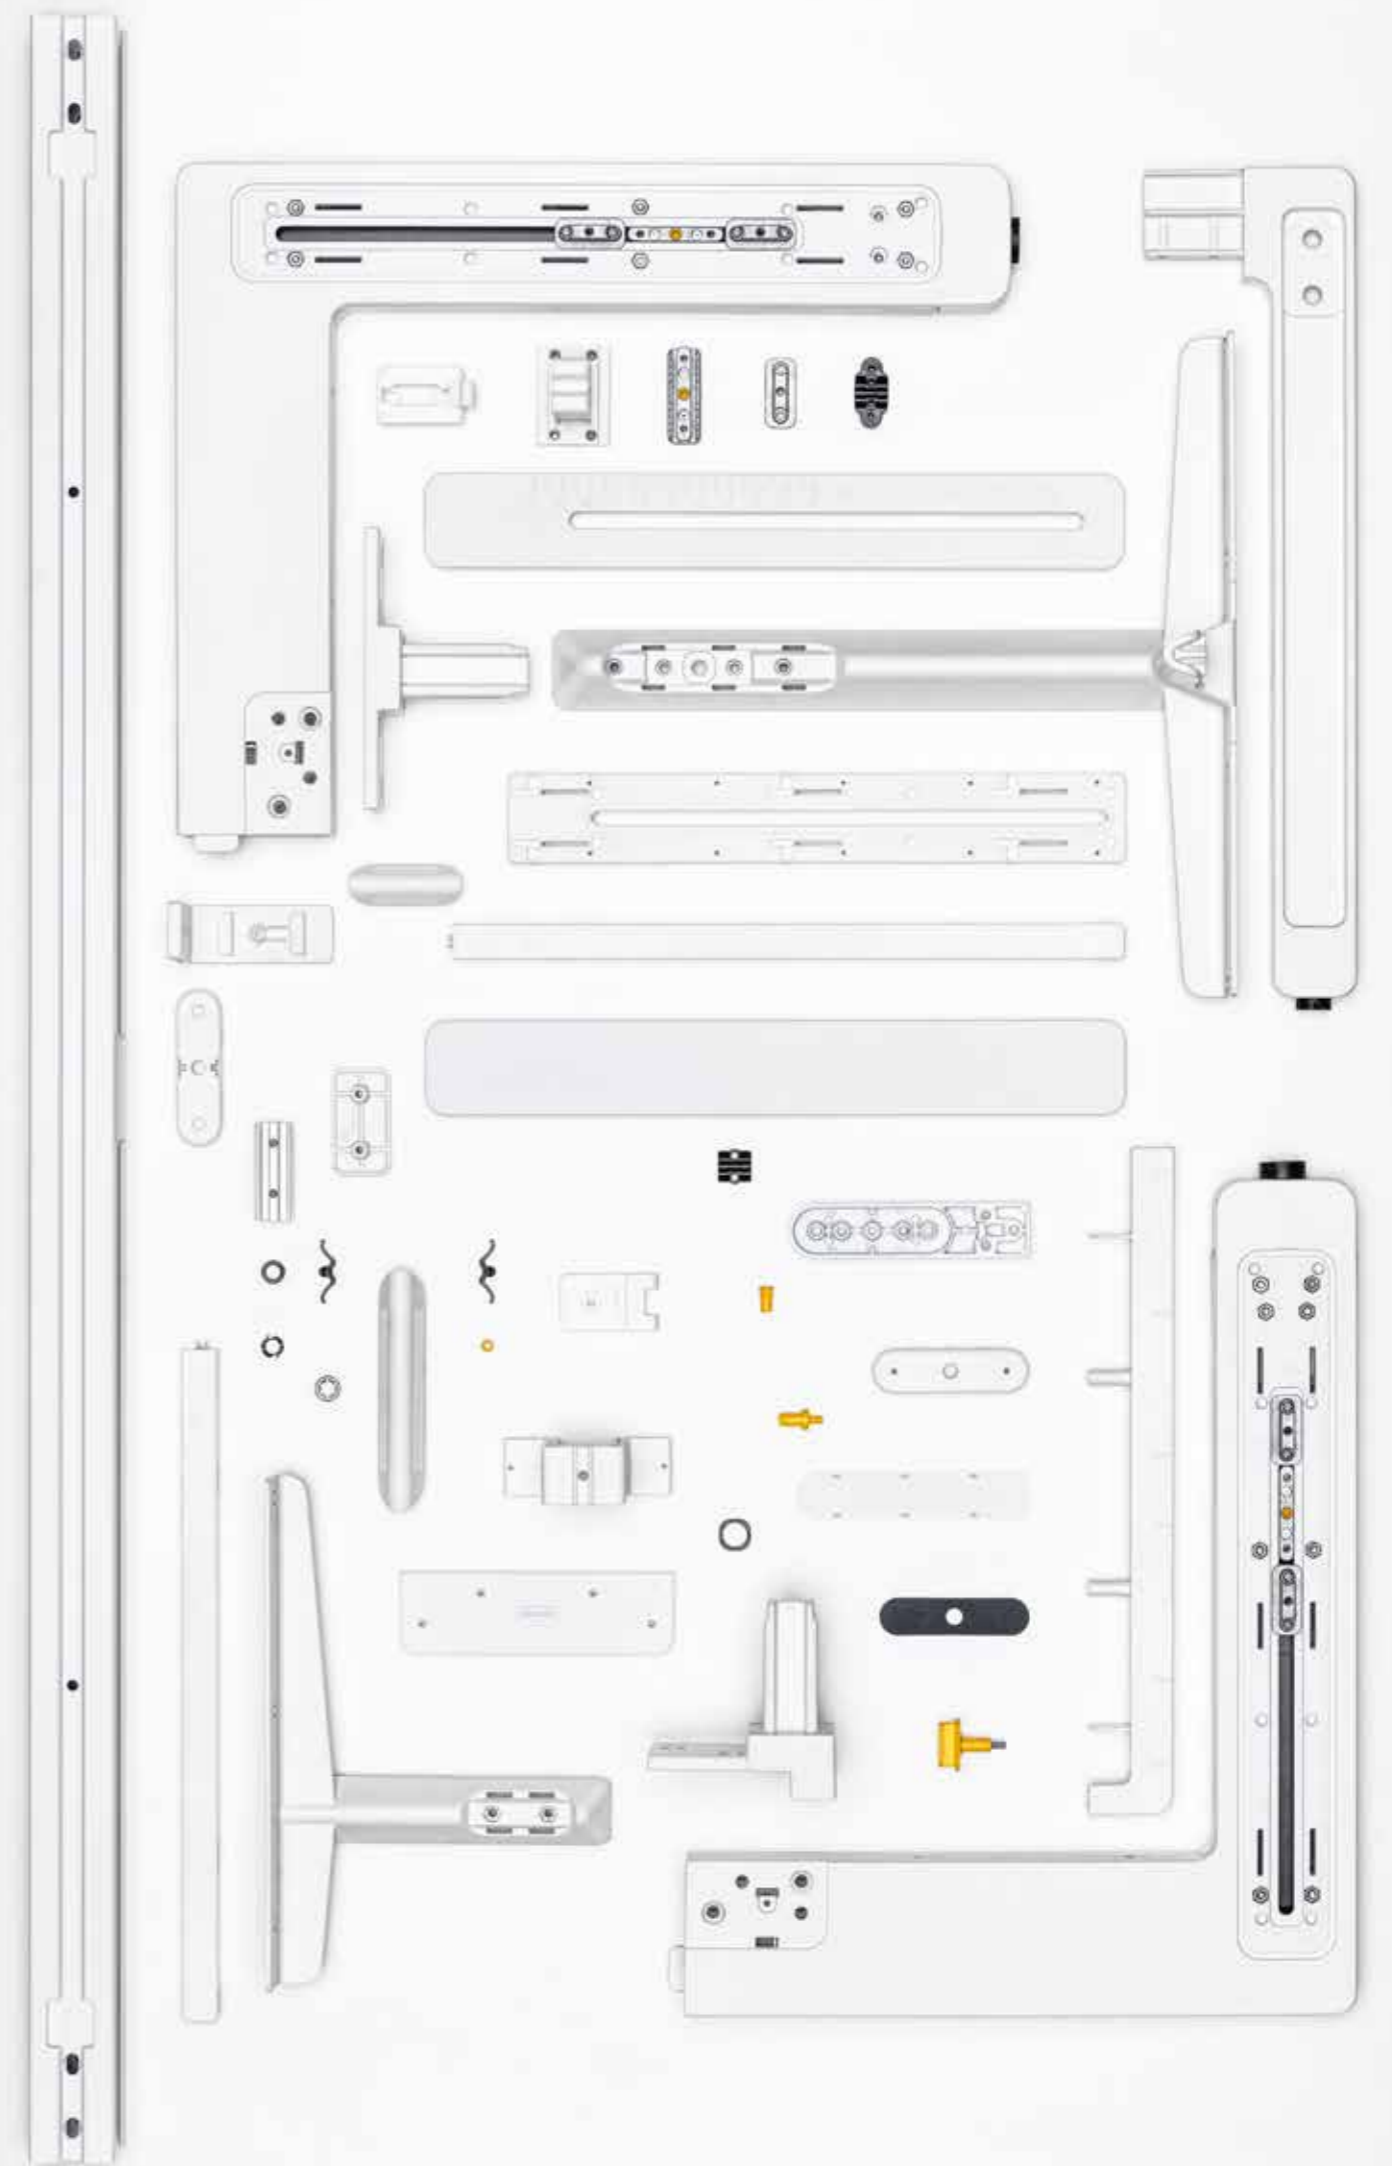

However for this personalisation to be realised the user interface has to be both flawless and simple or it would simply not be used. To achieve this level of excellence, you have to question everything. Every new product we create is made with a team encompassing the best designers, internal engineers, materials and suppliers possible.

ENGINEERING

Something truly innovative should solve a problem.

It should be effortless and integrate into your everyday life, making you wonder, what you did before it arrived. SetMe is exactly this.

SetMe legs are the true hero; the intelligent heart of the system that provides the height settable adjustment whilst having the facility to incorporate the other features such as electric height adjustable modules for work surfaces, side screens and work surface extensions. This is all delivered from within the meticulously engineered cast aluminium leg frame. Developing this took hundreds if not thousands of hours to hone and perfect the function and form of the leg.

STABILITY ENGINEERED

The foundation of SetMe comes from the design and engineering solution for the cast aluminium leg, aluminium has allowed us to integrate the use of a host of features to support the ability for SetMe to evolve in your workplace over time, be it layout changes, screen changes or height changes. Whatever it is, it's a smart solution.

1

A PROJECT SPACE FOR A TEAM TO GATHER.

2

THE CENTRAL PASS THROUGH CABLE MANAGEMENT HAS BEEN DESIGNED TO CARRY ANYTHING YOU COULD NEED AND ITS HINGED LID KEEPS IT ALL TIDY.

3

SOFT FORM SCREENS CAN BE ADDED TO PROVIDE ADDITIONAL PERSONAL PRIVACY.

1

COMMON DESIGN LANGUAGE ALLOWS THE VARIOUS ELEMENTS TO BLEND SEAMLESSLY TOGETHER.

IT'S ALL ABOUT YOU

How can we create something that can be used by everyone, the solution must give users the ability to define their workspace to suit their needs today and to change it easily tomorrow if those needs change.

2

ACCESSORIES THAT CAN BE HUNG SIMPLY AND MOVED WHERE YOU WANT THEM.

3

COMPLEMENTARY PERSONAL STORAGE DESIGNED TO FIT IN THE AESTHETIC OF THE RANGE.

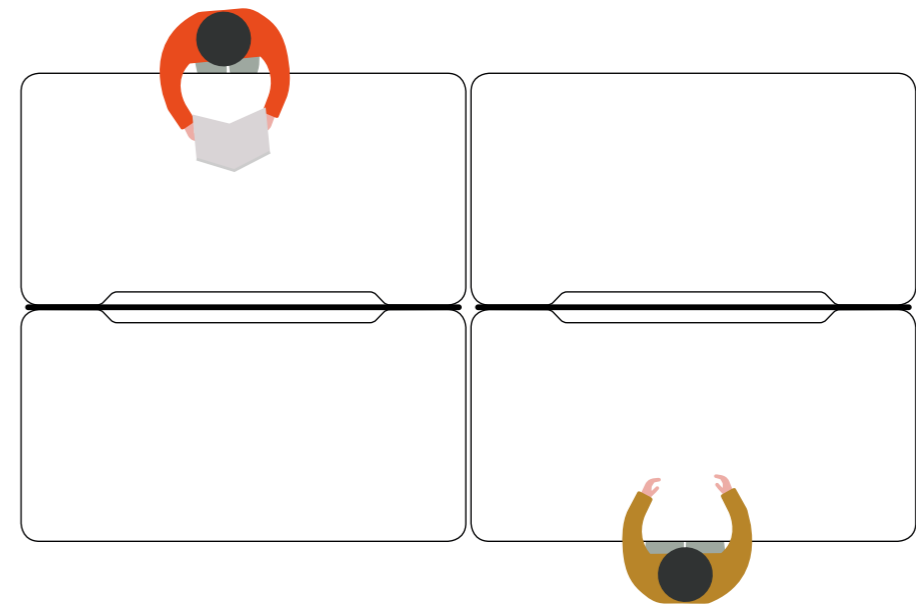

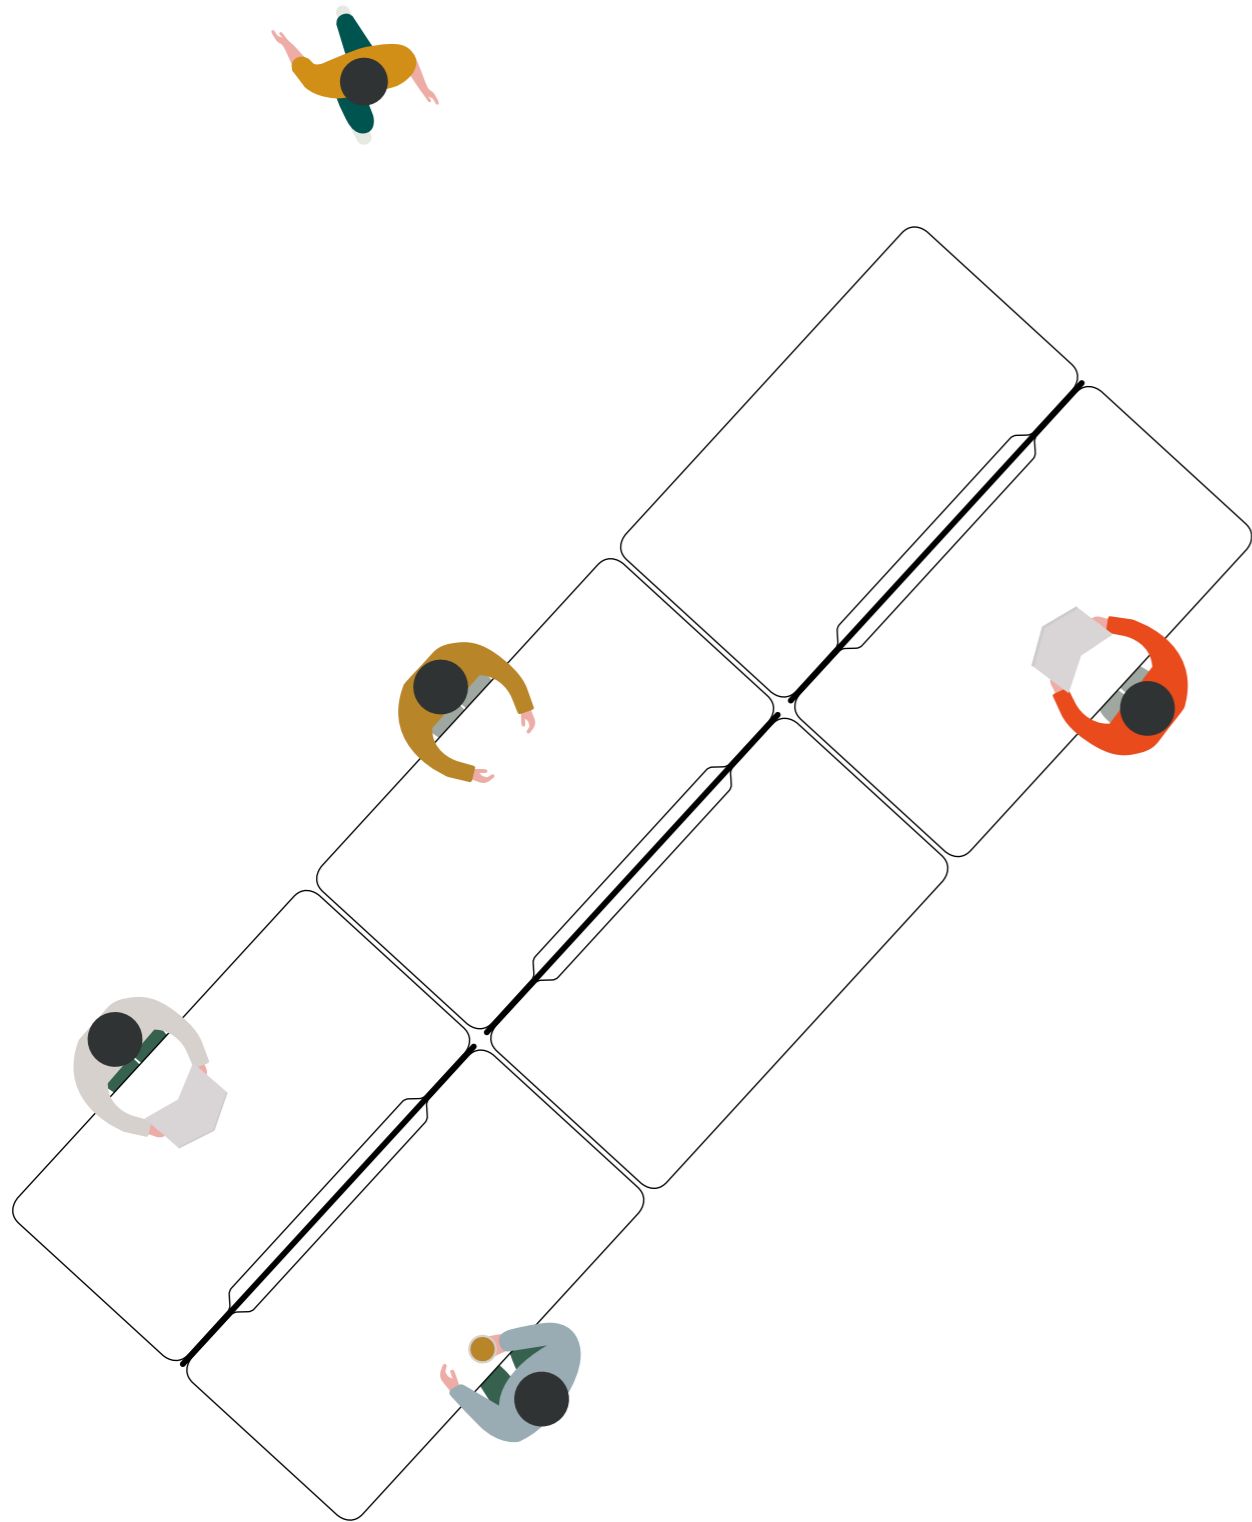

SECTION THREE

TECHNICAL DETAILS

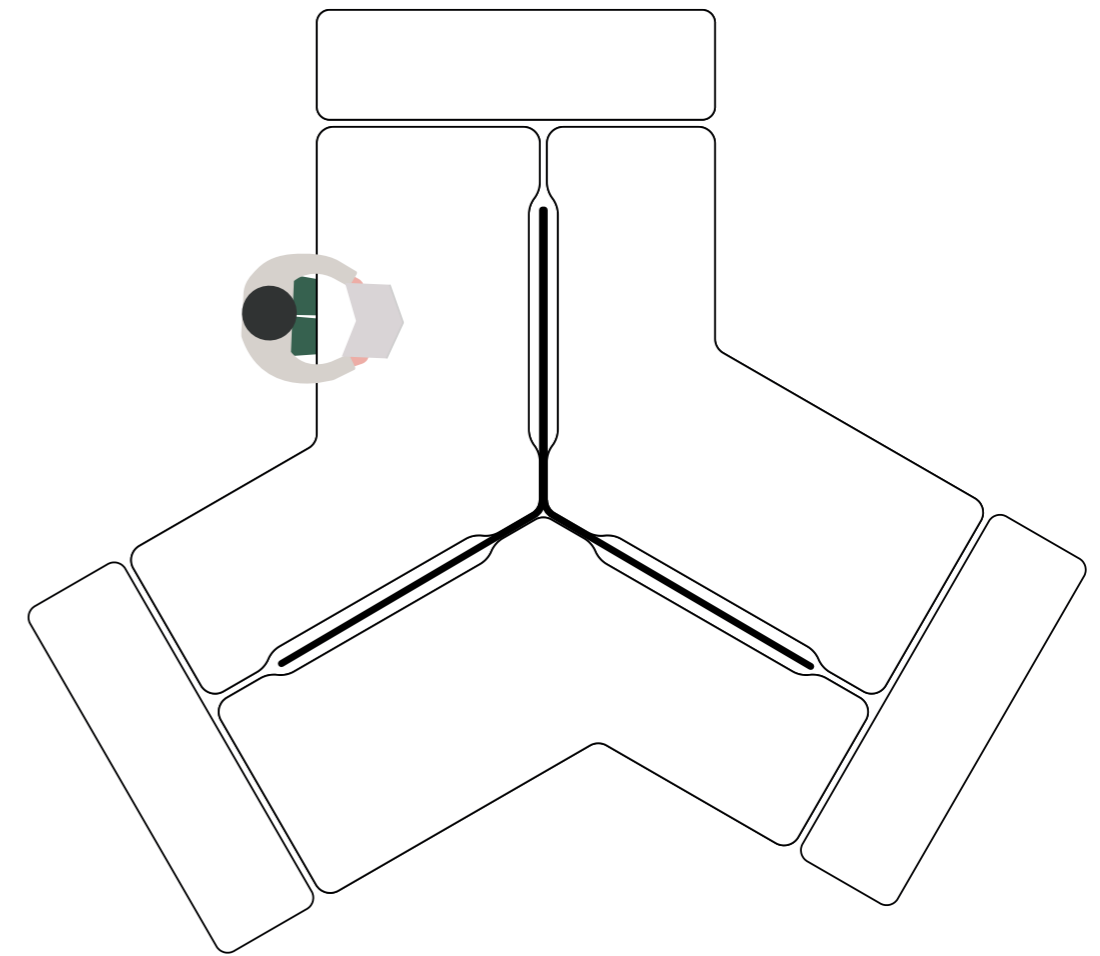

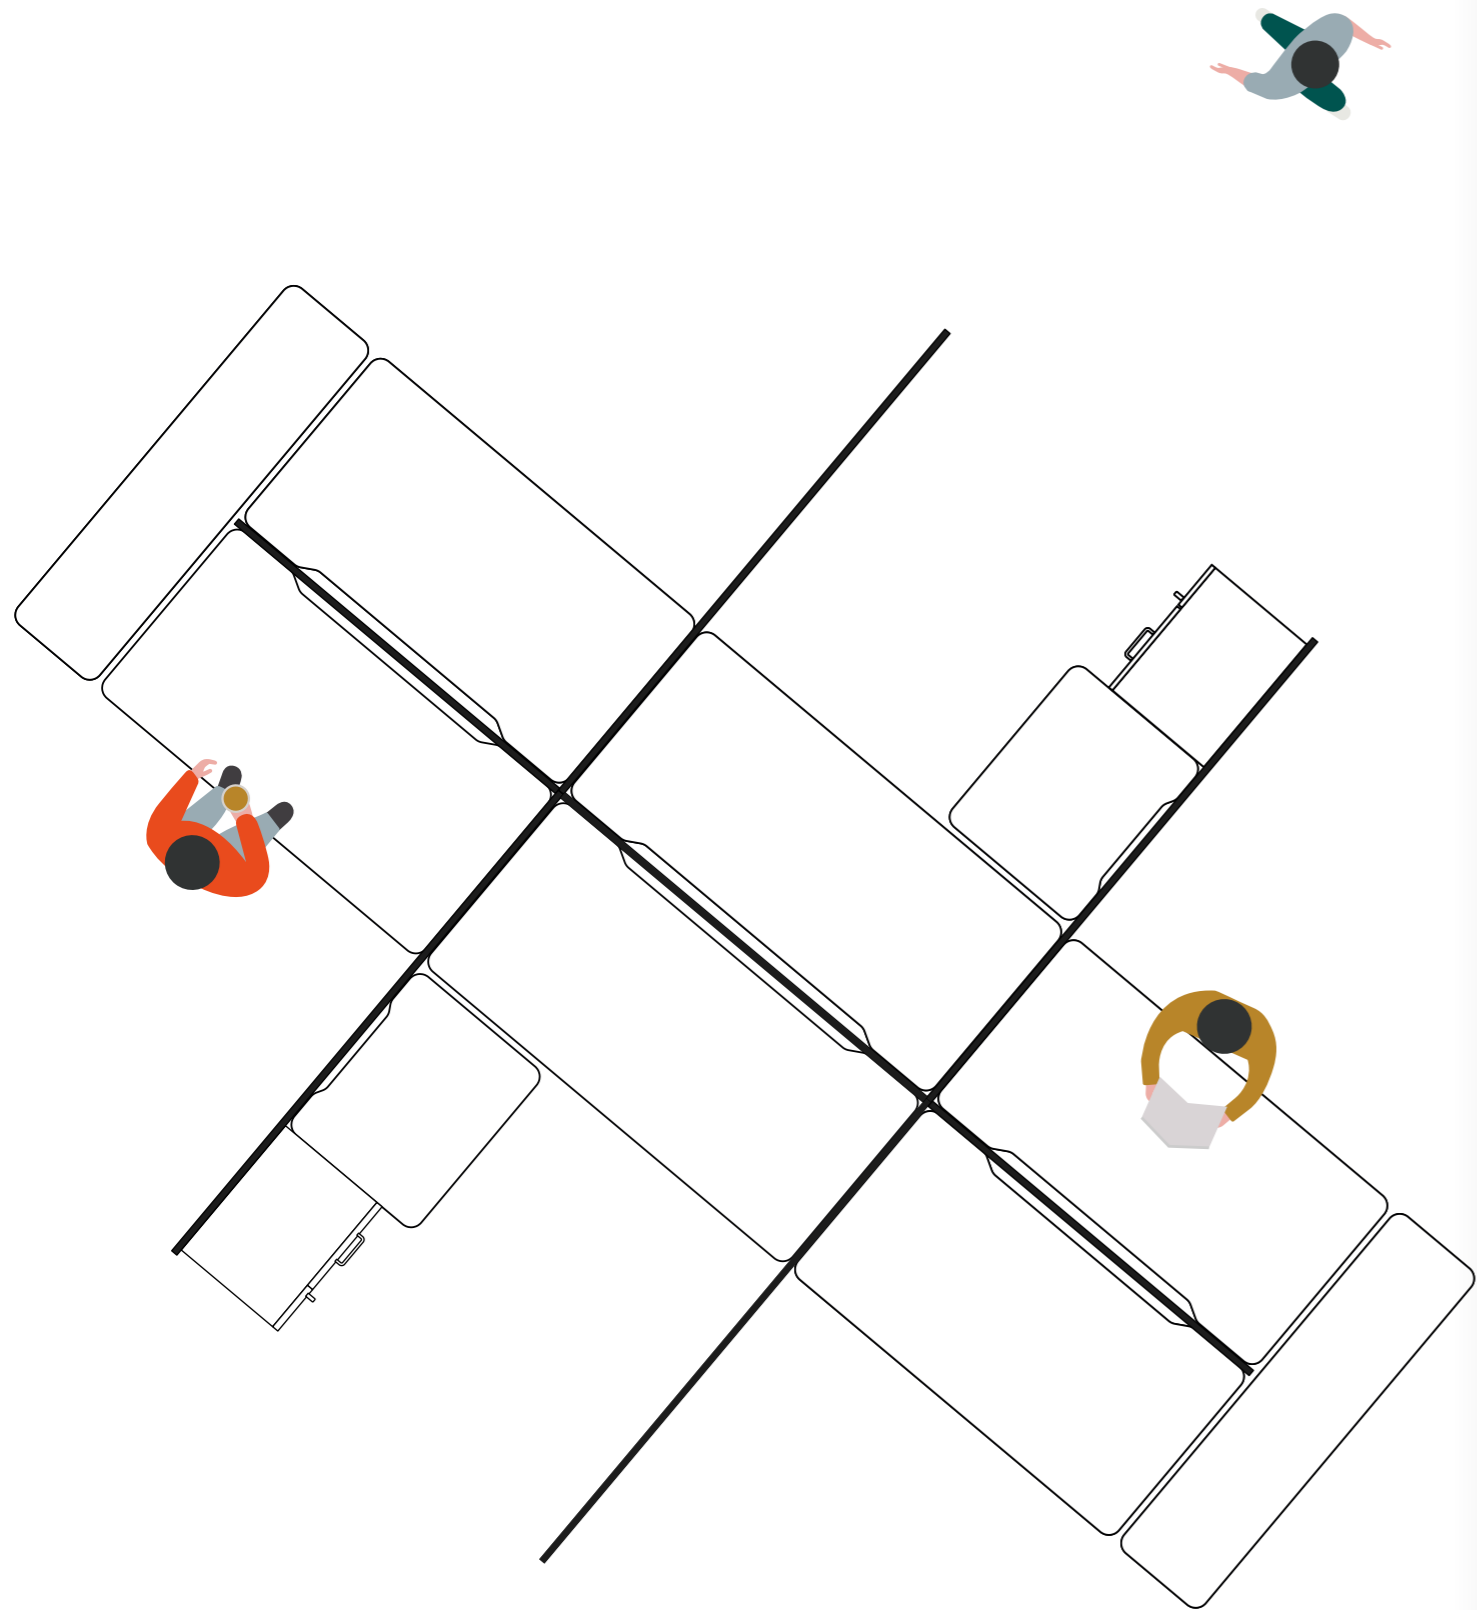

SetMe offers a variety of screens, freestanding or mounted, for any workstation to enable a greater level of privacy. They can also integrate tool rails that utilise a bespoke range of tool rail mounted accessories.

Screens can be specified as standard upholstered panels or pinnacle upholstered panels. The desk divider screens can also be specified as clear or smoke grey glass, allowing users to personalise their own workspaces. In addition to this, SetMe has a broad range of storage options that seamlessly integrate into the workstation, creating a benching system with multiple options and variations.

COLLABORATIVE SPACES

Collaboration fosters productivity.
The versatility of SetMe adapts to its
environments seamlessly and quickly.

INDIVIDUAL SPACES

Think, reflect and work. When deadlines are tight or personal space is required, the moveable screens can be added anytime, to give the user what they want.

THINGS CHANGE, SO CAN SETME

1 IN ITS SIMPLEST FORM IT IS A COLLABORATIVE HEIGHT SETTABLE BENCH.

3 SOMETIMES PEOPLE NEED MORE, MORE STORAGE AND MORE PRIVACY TO ALLOW THEM TO BE PRODUCTIVE. - ADD LONGER DIVIDER SCREENS AND STORAGE.

2 THE TEAM NEEDS PRIVACY TO FOCUS UPON INDIVIDUAL TASK, ADD DIVIDER SCREENS.

4 PERHAPS EVERYONE NEEDS A PRIVATE WORKSTATION. THESE WORKSTATIONS CAN FACILITATE THIS AND THROUGH ALL THESE CHANGES, THE BASE STRUCTURE REMAINED IN PLACE AND UNCHANGED.

WORK.

FOCUS.

COLLABORATE.

1

A DISCREET SWITCH
PLACED UNDER THE LEFT
OR RIGHT HAND SIDE
OF THE TOP TO ADJUST
HEIGHT.

GOING FURTHER

SetMe is a height settable benching solution, but some users may require a greater range of adjustment. Without disturbing the core structure of the bench it is easy to install an electric height adjustable work surface module providing 600mm of adjustment, so that it becomes sit to stand height adjustment. The beauty is that adding this changes nothing in the surrounding work surfaces and screens so it can be added moved or removed as needs change.

2

THE FLEXIBLE CABLE
SPINE SIMPLY ATTACHES
TO THE EXISTING CENTRAL
PASS THROUGH TO THE
UPPER CABLE TRAY.

3

SO EASY, SITTING OR
STANDING, YOU DECIDE.

PERSONALISATION

SetMe helps to create more natural and desirable workplaces by being easily customised to the individual's own working methods: standing or sitting, private or open, team or task.

SetMe is a bench system that fundamentally meets the needs of the individual and fosters greater productivity and connectivity. It provides practical functional support to work practices giving the user the freedom to configure their workspace in the most productive way possible without compromising their neighbours.

**ACCESSORISE
YOUR WORKSTATION
TO SUIT YOU**

**NEED MORE SPACE,
ADD A RETURN**

**NEED A TEAM SPACE,
ADD A MEETING TABLE**
