Pailo

Focusing on
the bigger picture,
"...Pailo's beauty
goes much deeper
than its surface..."
It's a desking system
designed around the way
we want to work and how
we use the space.

BRINGING WORK HOME

Pailo by Senator

As we continually move towards the desire for a more domestic working environment, Pailo provides a softer approach to the more formal bench desking systems that explores new ways to introduce new material combinations into the workplace. A natural selection for any corporate space the Pailo range incorporates a collection of single and back to back desks as well as multiple project tables to suit both formal and informal working styles.

Focusing on the bigger picture, Pailo is a desking system designed around the way we want to work and how we use the space. To offer customisable areas to suit even the most transient of workspaces, the inclusion of a gantry provides a hanging space for Pailo's versatile range of screens and accessories.

1

PAILO'S ADAPTABILITY ALLOWS USERS TO CUSTOMISE THEIR WORKSTATION. OFFERING A CHOICE BETWEEN THREE DIFFERENT SCREEN TYPES, MULTIPLE ACCESSORIES AND A VARIETY OF FABRICS FINISHES.

IN THE DETAIL

Pailo brings together several material elements to create a more domestically styled product. Wood, metal, fabric and leather are forged together. The solid ash used on the legs and gantry was chosen for the beauty of the grain and can be specified with a matt clear finish or black colour wash, perfectly complimented by the neutral tones of the bridle leather straps used to suspend the hanging screens and cable baskets.

2

ALONG WITH THE VERSATILE SCREENS OF PAILO THE DESK SURFACES COME IN A RANGE OF FINISHES, BLACK, WHITE, NATURAL AND EVEN THE OPTION TO ADD PREMIUM FENIX DESKTOP.

3

THE DEPTH OF DETAIL IN THIS DESIGN IS THE FUNDAMENTAL DIFFERENCE THAT ELEVATES PALIO FROM OTHER TRADITIONAL DESKING SYSTEMS ON THE MARKET.

1

HANGING SCREENS CAN BE SUSPENDED FROM THE GANTRY BY BRIDLE LEATHER STRAPS, LEAVING THE ABOVE SPACE FREE TO BE USED FOR PENDULOUS LIGHTING AND PLANTS.

2

PAILO'S CLOUD SCREENS CREATE A PLACE TO PIN IDEAS OR NOTES TO REMEMBER, MOUNTING DIRECTLY TO THE UNDER STRUCTURE OF THE DESK TO GIVE THE ILLUSION THAT THEY ARE FREE FLOATING.

ADAPTABLE SOLUTIONS

Define boundaries, add privacy, encourage collaboration – it's up to you.

Pailo's collection of customisable elements makes the system adaptable to the activity, formal or informal. It allows people to share knowledge and ideas quickly and effectively in a way that suits their communication and learning styles.

3

PAILO'S ADJUSTABLE DRAPE SCREENS OFFER PERSONALISED LEVELS OF PRIVACY, ATTACHED TO THE GANTRY THEY CAN BE RAISED OR LOWERED BY THE USER TO SUIT INDIVIDUAL PREFERENCE.

1

PAILO'S SPECIALLY DESIGNED FRAME ENSURES CABLES CAN BE EFFORTLESSLY MANAGED AND ALLOWS POWER TO BE INTEGRATED SEAMLESSLY.

2

NO DETAIL IS AN AFTERTHOUGHT. PAILO PERFECTLY POSITIONS USER PREFERENCES AT THE HEART OF ITS DESIGN.

3

THE SLEEK AND INNOVATIVE COMPOSITION OF PAILO'S DESIGN ENSURES THAT ITS AESTHETICS ARE NEVER COMPRISED.

UNDERSTATED INNOVATION

Pailo's beauty is more than surface deep, although constructed from wood, Pailo's legs are securely held in place via a metal to metal connection. The casting continuously connects to Pailo's innovative extruded beam structure, featuring a groove that hides all fixing points and also makes the underside smooth to the touch.

COLLABORATE AND CONNECT

Mobile technology and personal devices have become an essential integration into work life. With optional built in power and data, Pailo project tables give careful deliberation to the correct ratio of connectivity points to user and cable management, increasing in proportion with table size to create a desirable destination - to think and recharge, to collaborate and connect.
