Torasen™

PLUTO PLUS MESH

Pluto Plus Mesh delivers the same high performance as the Pluto Plus range. The addition of a breathable mesh back, available in a variety of colour choices, creates a modern feel and discourages fatigue. A fully synchronised mechanism allows the seat to be frequently and easily reconfigured without compromising comfort. Available with different arm options to meet your exact requirements.

THE SENATOR GROUP 3 R'S

The Senator Group is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

-Reduce
-Reuse
-Recycle
